

BELITEX® MATADUR

special additive for BELITEX® TA screed

BELITEX® MATADUR is a liquid additive used as a surface hardener for the BELITEX® TA screed, manufactured with the BELITEX® LT binder.

BELITEX® MATADUR is pulverized directly onto the surface of the BELITEX® TA screed, after poured and a first run of the bar for debubbling, and just before the final debubbling with a broom.

Indicative characteristics

- Nature: liquid
- Colour: Blue
- Specific gravity: 1,000
- Shelf life: 12 months

Precautions

Stir before use

The product should be stored: 5-25°C

Method of use

Consumption: around 1,5 litre for 20 m²

Apply within 30 min maximum, after the first run with the debubbling bar.

Then proceed with two crossed runs with the bar within 30 min maximum, to make sure **BELITEX® MATADUR** enters the screed.

Safety

This product is classified as "harmless". In case of exposure, it is recommended to wear your protective equipment.
